Louisville

Any one who visits Cincinnati, St. Louis, Chicago, and other Western cities, comes home to Lonisville satisfied that she is not doing what a city of her advantages ought to do. Short erops, and a river, sometimes dried up, and sometimes frozen up, may account for this in them along and scarcely feel their weight. And, R. R. Russell was appointed Sccretary. besides, some departments of business flourish here, and there is no reason why all should not, except for the copper-head politics of this city We have had here a crusade against foreigners and Catholics for several years. The country has been in danger, and it was indispensable to save it by kicking up a prodigious fuss generally. We have won a notoriety that may be satisfae tory to those who have nothing to lose, but we guess that most of those who have property or business to be decreased or ruined, will decide that the remedy for alleged evils costs more than it comes to.

Why can't the people of Louisville hold different politics, and vote in peace, as white peo ple do elsewhere? If we had twenty thousand more foreigners in Louisville than we have, with their capital, mechanical skill, and indus- bearers are in the field, and at work for the old try, would not business to-day wear a different aspect? A great mistake it is, to suppose that them, that might be true; but when popu lation is retarded or diminished, the work to be done is diminished in a still greater proportion. ly one thing here, for we know who "Green" is Our cities are indebted to the foreign-born population for one-half of their mechanical skill, for half their labor, and no small proportion of their capital. Louisville has concluded to forego this advantage. It is not worth while to deselect this as a place of residence or business, with a fore-knowledge of the treatment they sans to the obvious consequences. There is are hovering near us. selves; and the people of this city will regard obstacle to our prosperity will perish. It is an ill omen for a city when its population becomes out about 10,000 behind, and all his character so intensified that they can act in concert in nothing that requires mutual confidence.

This will be the most important politi al or that will be the inost important political content of the ago in which we live. If we succeed the Democratic party will stringte but teebly in the tuture: if we fail, waiting and desolution will fill the land—the American spirit will be forced to hide live for years, and I may be, forced to hide live for years, and I then should be said of it as it was of Jerusalem: "All that pass is clay their hands at thee, they his said wag their hear at thee, daughter of Jerusalem, saying: Is this the cit that meu call the perfection of beauty, the joy of the whole sure that

Letter from West Tennessee. DRESDEN, TENN., June 1st, 1857. Messrs. Editors: The canvass in our State s now fairly opened, and our gallant standard

If the in commencing, they will have to slight some counties, and I am very sorry to say ours is among the number, for the Democrats had been expecting ajubilee when "Green" came around;

'They spoke in an adjoining county last Wed-nesday; and I was not present, but learn it was just as the Democracy expected, for it is, as I knew before, that Hatton would be no more i General Harrris's hands than a mouse in lion's paw; and I do wish, Mr. Editor, you could have heard some of his speeches during the late ny it. No man in his senses can suppose that campaign, when he met the ablest man the opforeigners will likely remain here, much less position could start, for I know it would do your soul good to hear him. Gen. Harris is one of the most popular men I ever knew, to have been in public life so short a time as he has; and I are to be subjected to from a dominant party. It think he is undoubtedly one of the most logiis idle to tell any one that men are to be brought cal reasoners and sound debaters in the Union, here or kept here by deriding and denouncing and I hesitate not in saying that he will ere them; much less by such other treatment as they the gift of the American people. He could have received in this city. We believe this, have been Governor long ago, had he been like more than any other cause, or more than all some men, always thrusting themselves upon other causes combined, has retarded the prosperity of our city. Of course, a party has a right to believe what it pleases, and to advocate what it believes. It has a right to save the the people; but Gen. Harris is a man of extreme modesty, and has never asked •ffice in his life, but has devoted all his time to the close study and practice of his profession; and it was thus that the brilliancy of his intellectual mind be-Union and the liberties of the country, which came so apparent that the people, with singular

I will give you a synopsis of their speeches as soon as possible.

Gests—I have sold during the past season tweuty-five dozen, or three hundred bottles, of your Chili and Fever medicine, Hughes' Tonic. This indorsement of public sentiment speaksloudly in its praise, and I but echo the opinions of all who have need it, when I say that I consider it one of the very best remedies, both for the prevention and cure of Fever and Agne, that has exercome under my observation. I have uo hesitancy in recommending it to every person requiring such a Tonic. Hoping that you may successfully introduce your valuable medicine to the public generally.
